Data dictionary

A set of terms matching with a description of the term in the context of the application. **General terms**

Term	Description
User	A person who uses the app and its services.
Clinic	An establishment where patients are given medical treatment or advice.
Rating	A measure of a user's satisfaction ranging from 1 to 5 stars. 1 star represents 'very dissatisfied', while 5 stars represents 'very satisfied'.
Average Rating	A measure of what users on average rate a clinic.
Dosage Form	The appearance of the medicine and the way it is to be applied. (Example: Oral tablet)
Medicine	A drug or other preparation for the treatment or prevention of disease.
Target Illness	The illnesses for which a specific medicine is aimed at preventing or treating.
Ingredients	A list of chemical compounds contained in each unit dosage of medicine.
Active Ingredient	The ingredient in a pharmaceutical drug or pesticide that is biologically active.
Manufacturer	The brand that produces a certain medicine.
Medicine Dose	A quantity of medicine prescribed to be taken at one time.
Notification Permission	A request from an app to ask for permission to send notification messages on a user device, which the user can allow or deny.
MTBF	Abbreviation of Mean Time Between Failure, which indicates the average time between system breakdowns.
